Company: Jumpstartz

Location: CBD

Employees: 6

Jumpstartz is a technology company focused on high-growth sectors in the IT market. We focus solely on the development of our own high profile public platforms. Our developers see themselves not only as IT experts but also software entrepreneurs.

### The Internship:

We use the latest web technologies – if it's new, we play with it!  
The team is made up of front-end, back-end and server-side professionals.  
We give our team the freedom to be creative and work autonomously.  
We make cool stuff. We encourage cool ideas.  
Be surrounded by and learn from an experienced Development team.

### About You:

Your focus will be on back-end development.  
Python or Django experience is a must.  
You must have excellent time management and organisational skills.

### Interested in this internship?

If you love the latest technologies and fancy yourself as a software entrepreneur, apply via email to [sam@jumpstartz.com](mailto:sam@jumpstartz.com).
